EXPLANATORY

In presenting to the public this roster of Mexican, Civil and Spanish American war veterans now residing in Nebraska, I feel that an explanation is necessary from the fact that to many of us the number of veterans herein recorded is far below what we had been lead to believe helped to make up the splendid citizenship of our most excellent state. The law provides that the county assessors shall make a census of veterans and after arranging it in alphabetical order, giving the regiment and state and if in the navy the vessel, the same shall be returned to the Secretary of State who is then directed to publish the roster. The law also provides the method of distribution by the Secretary of State.

It is quite possible that omissions have been made by the county assessors in the different counties of the state, and if such be true, no blame should attach to the Secretary of State because of such omissions.

CHARLES W. POOL,
Secretary of State
